

Enginuity Portable Grid

CQ-800

*We bring the **grid** to you*

30 Foot Sound Attenuated Power Module

Features:

- Cummins QST-30 EPA emissions certified Tier II
- 800 KW standby power
- 277/480 Volts - reconnectable to 120/208 Volts
- Newage Stamford PMG alternator
- Cummins Power Generation PCC digital controls with full unit to unit paralleling
- 3000 amp electrically operated breaker with GFI
- Engine driven charging alternator
- Battery isolation switch
- Dual 8D Batteries
- Block heater with isolation valves
- 110 % containment of all engine fluids

Special Features:

- 30 foot ISO container with 4" insulation
- Critical grade insulated silencer
- 73 dB(A) @ 7 M
- Vertical air discharge
- Air discharge roof screen
- Purpose built tandem axle chassis
- Cable connection box breaker safety trip with shore power connection inside
- External emergency stop
- Battery
- Lamarche 10 amp battery charger
- Battery box mounted within containment
- 1250 gallon trapezoid Double Wall UL 142 fuel tank (front mounted with service door access)
- 22 hours operation @ "prime power"
27 hours "continuous"
- Racor duplex fuel water separator
- Single point fueling access through service door

- Fire extinguishers (two)
- AC / DC lighting package on solid state push timer (contained fixtures)
- 100 Amp auxiliary power electrical distribution
- Five service access doors
- Oil and coolant drains with isolation valves
- Digital fuel level display (dual)
- Manual fuel sight gauge top tank mounted
- Cable storage compartment
- Document storage box
- Aluminum tread plate in walkways
- Ladder Box (locking)
- Ladder and two stabilizer jacks saddle mounted (locking)
- New tandem axle 30 foot chassis with radial tires and under-slung ladder box
- Full performance tested in all modes prior to shipping
- Complete documentation and "as-built" drawings

Cutting Edge Technology:

A product designed to meet market demand for highly portable and versatile compact power generation. EPG power modules are environmentally friendly, easy to operate and made with the highest quality materials available.
